

# AUTOMATION SERIES : SCARA Robot

**TR** T-ROBOT

## Training Includes :

- ▶ Introduction to Robotics & SCARA
- ▶ SCARA Robot definition & Applications
- ▶ Mechatronics element & part identification
- ▶ Teaching pendant application
- ▶ Mastering the calibration of SCARA Robot
- ▶ Basic Robot simulation software application
- ▶ Building and construction of SCARA Robot
- ▶ Maintenance procedure
- ▶ Machine to Machine integration

Duration : 5 days  
UPM-MTDC Technology Centre III

HRD CORP  
CLAIMABLE :

## Description :

Selective Compliance Articulated Robot Arm (SCARA) Training is one of the key knowledges for all range of industries especially in the manufacturing sector. SCARA Robot is one of the most matured technology in Robotics that could establish simple and repetitive tasks in a fast and continuously without any interruption.

## Who should attend?

- Technicians and production workers who wish to use and undertake automation project in manufacturing
- Engineering personnel who wish to obtain knowledge about industrial automation and systems are also encouraged to participate

*\*Participants should be able to apply the use of basic components in automation.*
